

QUALITY AND ENVIRONMENTAL POLICY

As Polipropilen Elyaf San. ve Dış Tic. A.Ş., our company prioritizes customer satisfaction with an awareness of quality, product safety, and sensitivity to environment, urbanization, and climate change in meeting the yarn, fiber, and rope needs of our customers operating both domestically and internationally. We have adopted the principle of meeting our customers' sectoral needs and expectations at the highest level and providing products that comply with national and international standards as well as legal requirements. We are committed to providing all necessary support to ensure the continuity of these principles.

In line with this purpose and the principles we adhere to, we aim to:

- Continuously increase quality and efficiency while minimizing costs,
- Ensure continuous improvement in accordance with ISO 9001 Quality Management System and ISO 14001 Environmental Management System standards,
- Provide good manufacturing practices and appropriate environmental and climate conditions,
- Ensure that products meeting defined and measurable quality criteria, as well as customer demands and expectations, are delivered to customers at the best price and in the shortest time,
- Continuously develop and improve our systems by following technological advancements,
- Ensure the continuous development of our employees in line with the requirements and sustainability of the quality management system,
- Reduce the consumption of natural resources in accordance with ISO 14001 Environmental Management System requirements, prevent environmental, urbanization, and climate change-related pollution, and enhance awareness in these areas,
- Increase the expectations and satisfaction levels of all stakeholders.
